

*Instruments  
made to measure!*

## The new **ECO** line

**Economical devices:  
efficiently designed and manufactured**

### Features

- streamlined manufacturing
- smart technology
- economical design
- very cost effective
- available from stock

# The new line

Type Series CC7510 ECO

## Pressure transmitter COMPACT for food/pharmaceutical/biotechnology

- hygienic flush-mounted process connections
- measuring range: 0...1 bar up to 0...40 bar
- accuracy  $\leq 0.3\%$
- easy zero correction using a magnet

## Pressure transmitter COMPACT for general application

- process connection screw-in thread: G1/2, G1/4, 1/2" NPT
- measuring range from 1 bar up to 600 bar
- output signal: 4...20 mA
- accuracy  $\leq 0.3\%$
- easy zero correction using a magnet

Type Series CB7500 ECO

Type Series GA2700 ECO

## Resistance thermometer MiniTherm for food/pharmaceutical/biotechnology

- hygienic process connections
- output signal Pt 100 or 4...20 mA
- high accuracy
- fast response
- M12 x 1 circular connector IP 67

## Pressure gauge DN 63/DN 100 for food/pharmaceutical/biotechnology

- high quality case with bayonet ring DN 63/DN 100
- small temperature error
- accuracy class 1.6/1.0 per 837-1
- process temperature up to 140°C
- hygienic process connections

Type Series BH5 . . . ECO
